

Doza Collection

**GREEN
DESIGN**
FURNITURE

Introducing our Doza Collection. An incomparable fusion of form and function are reflected in our new Doza Collection of seating. Each piece offers the ultimate in ergonomically designed cushion construction, thanks to innovative techniques developed specifically for this line. The sculpted back cushions provide superb lower back support, while the seat cushions have just-right padding and softness. Several cushion fill options and designer upholsteries complement personal home decor. Inspired by the Series² collection, the curvilinear shapes created by carving away material are expressions of style and substance.
